## 1. SALIENT FEATURE of Contract Package: STIUEIP/W/BRT/ICB-01

General Features	
Name of Project	Secondary Towns Integrated Urban Environmental Improvement Project(STIUEIP)
Executing Agency	Government of Nepal, Ministry of Urban Development Department of Urban Development and Building Construction (DUDBC)
Implementing Agency	Biratnagar Sub-Metropolitan City, Biratnagar
Funded By	Asian Development Bank &Government of Nepal
Package	Sewerage and Drainage Network, Wastewater Treatment Plant and Road and Lanes Improvement Sub Project
Contract No.	STIUEIP/W/BRT/ICB-01
Location	Biratnagar Sub-Metropolitan City, Biratnagar
Consultant	SMEC in association with Brisbane/AQUA/BDA/CEMAT
Contractor	CTCE-KALIKA Joint Venture
Date of Commencement	8 <sup>th</sup> December, 2013
Original Contract Period	900 days from date of commencement
Original Date of Completion	25 <sup>th</sup> May, 2016
Revised date of Completion	09 <sup>th</sup> March, 2017
Original Contract Amount with PS and VAT	NRs. 2,391,332,117.06
Revised Contract Amount including PS and VAT (After VO-2)	NRs 2,719,617,069.21
Paid Amount up to IPC 18	NRs. 1,583,722,070.99 (Including PS & VAT)
Financial Progress wrt VO-02	58.23%
Physical Progress till July, 2016	60.10%

#### 2 INTRODUCTION/BACKGROUND

- 1. SMEC International Pty (Australia)in association with Brisbane City Enterprise Pty Ltd (Australia), AQUA Consultant and Associates Ltd (Bangladesh), Building Design Authority (Nepal) and CEMAT Consultants(Nepal) have entered for a Contract of Consulting Services with Secondary Towns Integrated Urban Environmental Improvement Project (STIUEIP), Project Implementation Unit(PIU), Biratnagar Sub metropolitan City on 7<sup>th</sup> December 2011. This monthly Progress Report of June, 2016 has been submitted to the PIU as per the Work Program proposed in the consultant's technical proposal as well as TOR of the consultant.
- 2. Secondary Towns Integrated Urban Environmental Improvement Project(STIUEIP), the Department of Urban Development and Building Construction (DUDBC),under the Ministry of Urban Development(MUD) through the Government of Nepal (GoN) has received the loan from Asian Development Bank (ADB) Loan 2650-NEP. As per PAM contribution from GoN is 3.99 million USD, Asian Development Bank (ADB) 18.86 million USD and Biratnagar Submetropolitan City (BSMC) 1.99 million USD while contingency is 2.88 million USD for Secondary Towns Integrated Urban Environmental Improvement Project (STIUEIP), Biratnagar. The cost sharing has been revised in April, 2013as: Government of Nepal (GoN) is 5.960 Million USD, Asian Development Bank(ADB)24.214 Million USD, TDF Ioan 4.098 Million USD and Biratnagar Sub-metropolitan City(BSMC)2.980 Million USD and in total 37.252 Million USD.
- 3. In line with ADB's Strategy 2020 and based on Nepal's fundamental longterm needs and on the GoN's priority, the ADB is continuing to support the Government in(i) improving urban infrastructure; improving access to water supply and sanitation (ii) supporting urban environmental improvement(iii) strengthening the operation and management skills of local governments. The proposed project Secondary Towns Integrated Urban Environmental Improvement Project (STIUEIP) is another step forward to promote healthy cities by creating healthier urban environments and was formulated under the PPTA 2010.
  - Contract of consulting services signed on 07December 2011.
  - Design works commenced on 01 January 2012.
  - Final design works submitted to the Client on March 2013
  - Contract of construction works signed on 02 December 2013
  - Construction works commenced on 08 December 2013
  - Contractor's Work Program (Revision 02) 05 December 2014, this has to be revised as the work progress is not consistent. The Contractor is advised to revise the work program and it is expected to receive by the end of August 2015. The Contractor has officially submitted the revised work program through the Contractor's letter ref.071/72-413(site) on 15<sup>th</sup> July 2016 but the Engineer has asked to submit with S-Curve, resource plan vide letter ref. SBS- Rev-w pro. Dated 18<sup>th</sup> July, 2016.

### 3. SUB-PROJECTCOMPONENTS

#### 3.1 SEWER LINES

4. The prioritized sewer lines for Final Detailed Engineering Report of BSMC are as follows:

Table1: Proposed Sewer Lines in BSMC

S N.	Description	Unit	Quantity
1	Sewerage Pipe Supply and Installation	m	63,964.0
	Reinforced Concrete Pipe laying and jointing		16,612.0
	Line T1 (Secondary	m	3,788.0
	Line T2 (Trunk)	m	8,370.0
	Line T3 (Trunk)	m	4,136.0
	Line T4 (Secondary)	m	318.0
	HDPE laying and jointing	m	47,352.0
	Line T1 (Secondary	m	7,124.0
	Line T2 (Trunk)	m	19,410.0
	Line T3 (Trunk)	m	18,606.0
	Line T4 (Secondary)	m	22,12.0
2	Manhole ( Brick / RCC)	no.	2,036
3	Sewer Inlet	no.	3,766.00
4	House Connection	no.	5,930.00
5	Reinstatement of Roads	km	66.06

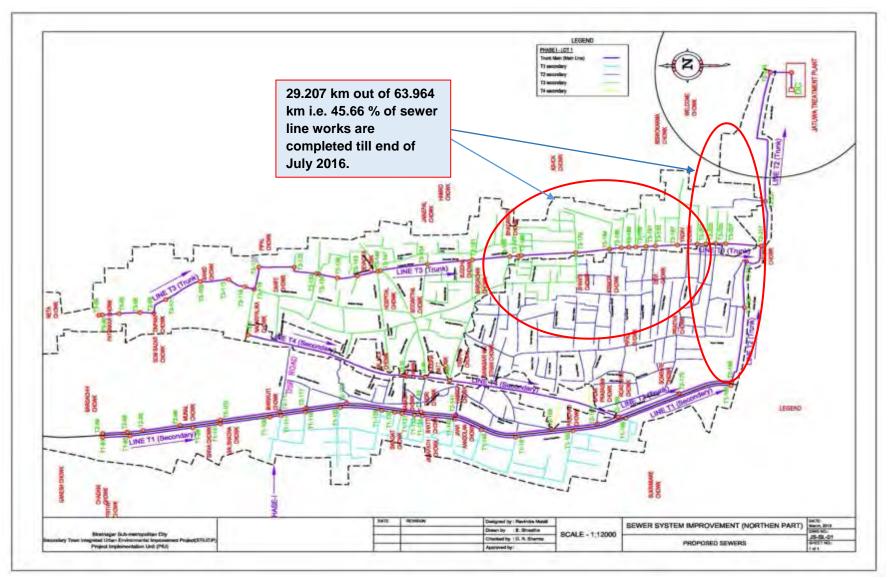

FIGURE. 1PROPOSED SEWER LINES IN BSMC

#### 3.2 Storm Water Drains

4. Most of the storm drains(S13,S11,S9,S5,B1,B2,B3,CN2,CN3 and southern parts) have been provisioned as Phase I priority works. The major storm drain outlets as planned are14 numbers and catchment areas and discharges are respectively1, 324.2Ha and 73.21 cum/sec.

**Table2: Proposed Storm Water Drains in BSMC** 

S.No.	Description	Unit	Quantity
Α	Storm Drain for Northern Parts		28,491.00
I	Storm Drain Lines	m	28,491.00
II	Culvert	no	41
III	Outfall	no	15
IV	Rain Inlet	no	30
V	Manhole	no	30
VI	Canal Crossing	no	11
В	Storm Drain for Southern Part		
I	Brick Masonry Drain	m	8,483
II	Cleaning and Maintenance of Existing Drain	m	7,273
III	Culverts	no	38
С	Rehabilitation of Existing Drain		
I	Drain Cover	m	30,467
II	Cleaning and Maintenance of Existing Drain	m	33,601

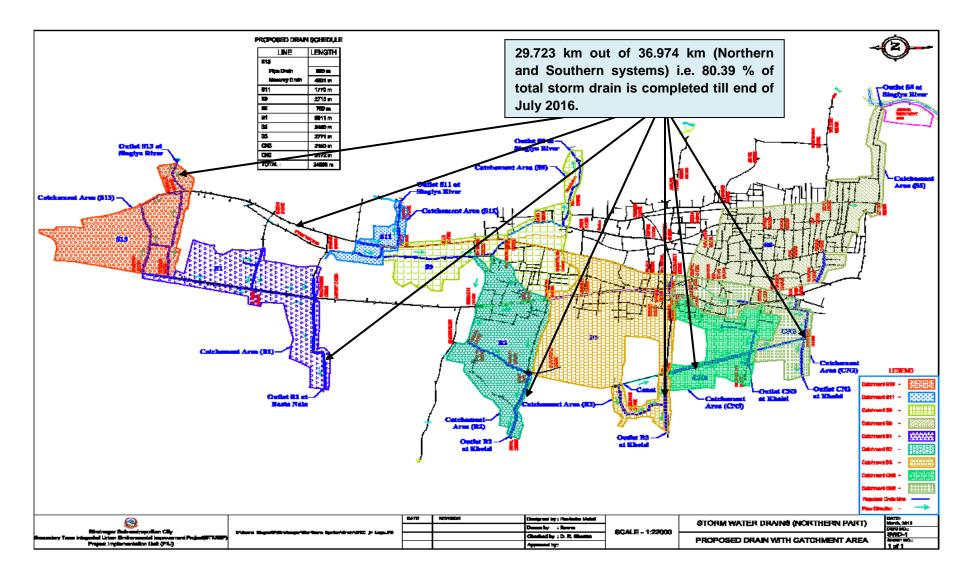

Figure 2: Proposed Storm Water Drains in BSMC (Northern Drainage System)

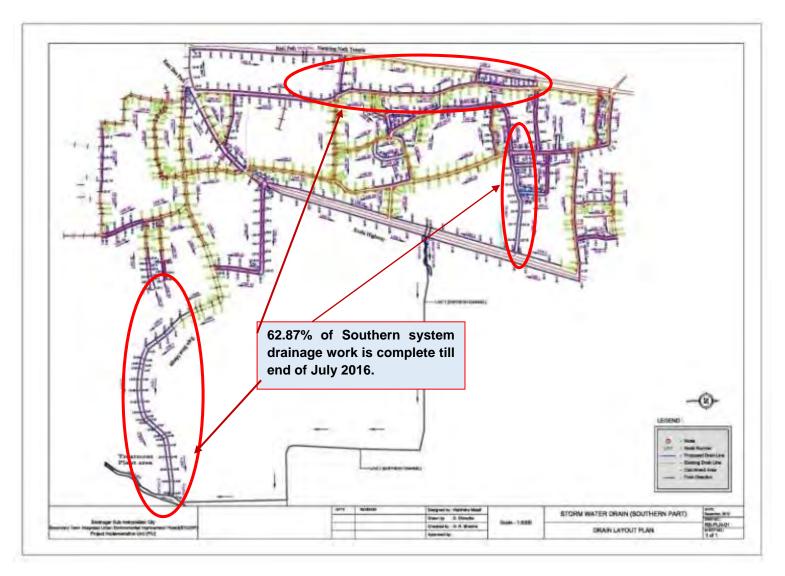

Figure 3: Proposed Storm Water Drains in BSMC (Southern Drainage System)

#### 3.3 WASTE WATER TREATMENT PLANTS

5. The quantity of domestic waste water is calculated using water supply rate at 90 liters per person per day in the design year 2035, out of which 80% is converted into waste water. Maximum quantity of waste water is calculated taking peak factor of 1.99 to 2.5. Minimum quantity of sewage is taken as 30% of the average quantity. Commercial / Institutional / Industrial waste water quantity is calculated as 0.10 LPS/ha. While infiltration quantity is calculated as 0.14 LPS/ha in the design year 2035. The total quantity of commercial / institutional / industrial and infiltration waste water estimated as 237.79 LPS in the design year 2035 which is very large in comparison with domestic waste water quantity of 207.18 LPS. The maximum quantity (peak flow) of waste water in the design year 2035 for both Phase I and Phase II are as is estimated at 650.08 LPS. The maximum quantity of the waste water for Phase I are as only is estimated at 213.97 LPS. The capacity of the Phase I WWTP has been adopted as 214 LPS. The capacity of the Phase II WWTP will be thus 436 LPS. Features of WWTP at Jatuwa are as follows:

**Table 3: Proposed Waste Water Components in BSMC** 

S.N.	Description	Unit	No
	Waste Water Treatment Plant Component		
1	By Pass Chamber	No	1
2	Distribution Chamber	No	1
3	Bar Screen Chamber	No	2
4	Sump well with Pumping Station	No	2
5	Collection Chamber1	No	1
6	Oil &Grease Chamber	No	2
7	CollectionChamber2	No	1
8	Grit Chamber	No	2
9	CollectionChamber3	No	1
10	Anaerobic Pond	No	3
11	Facultative Pond	No	3
12	Collection Chamber4	no	1
13	Outfall Structure	no	1
14	Sludge Drying Bed	no	10
15	Enclosure Chamber Shed	no	1
16	Guard House	no	1
17	Office Cum Lab Building	no	1
18	Workshop Building	no	1
19	Generator/Changing House	no	1
20	Entrance Gate	no	1
21	Boundary wall	m	1,340
22	Shallow Tube Well with water Tank	set	1
23	Landscaping and Plantation works	sqm	99,915
24	Site clearance, grubbing, surface dressing	sqm	99,915

25	Road and Drain Improvement	m	1,440
26	River training works	m	600
27	Electromechanical works	Set	1
28	Lab Equipment and installation	Set	1

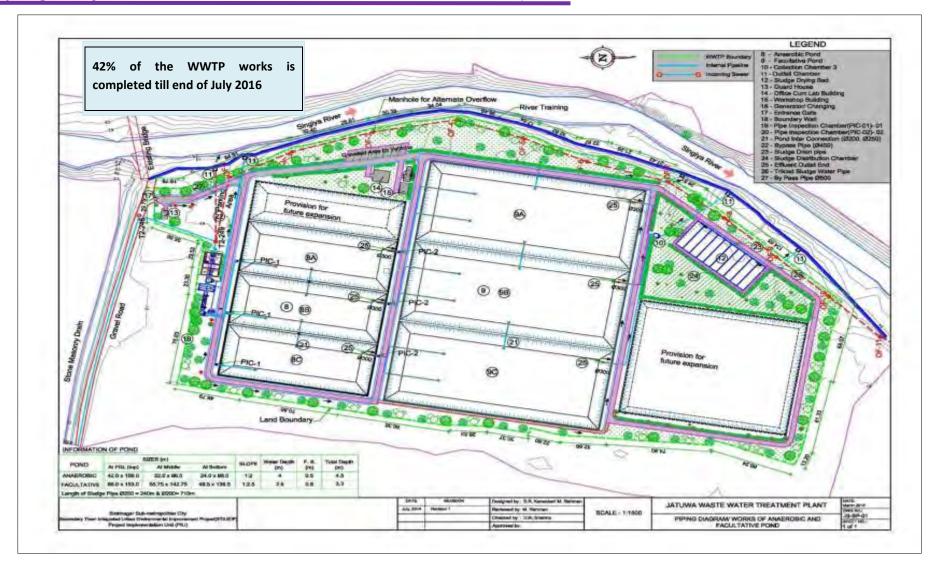

Figure 4: Proposed Waste Water Treatment Plant at Jatuwa in BSMC

#### 3.4 Roads and Lanes

6. Most of the roads/lanes in Biratnagar are in a poor state due to lack of periodic maintenance, and need improvement, where as some of the roads are graveled and would benefit from upgrading. In the areas where drainage and sewerage works are proposed there will be significant impact on the existing roads. Almost necessary streets are already constructed and hence the Project has considered on design based on reinstatement, rehabilitation and upgrading of existing roads and lanes.

Table 4: Proposed Roads in BSMC

Description of Item	Quantity
Main Road Improvements(Road from Puspalal Chowk to Bhatta Chowk)	2.35 Km
Reinstatement and Road Improvements (under sewer line installation)	63.71Km

#### 3.5 Environmental Aspect

- 7. The project is environmental improvement project and mainly constitutes works on sewerage and drainage improvement works in BSMC besides others. As per ADB guide lines on Environmental Assessment requirements, this project is classified as Environment Category B. According to Environmental Protection Guidelines, 2054BS, First Revised (2055BS) schedule-3, IEE is required for Operations of Sewerage Schemes under Schedule1.h.2.e (pertaining to Rule3). The final report on IEE was submitted and MoUD had approved the IEE on May14, 2013.
- 8. Installation of functioning sewers and functioning drainage system including roads/lanes improvement in BSMC does not possess any adverse environmental impacts to its surrounding. In fact, these will greatly enhance the living conditions/hygiene of the in habitants and facilitate transportation. Nevertheless, it is imperative to look into positive as well as negative impacts of such infrastructure development works in the urban area.
- 10. DSC has prepared and submitted Environmental Progress Reports (Semi-Annual) October 2014 March 2015 and Quarterly Updated Environmental Report, January March on 27 May 2015. Recently, the DSC has received comments from PCO to revise semi-annual environmental report. The next Quarterly Updated Environmental Report for the months of April, May and June 2016 and semi –annual report will be submitted soon.

#### 3.6 SOCIAL ASPECT

11. Secondary Towns Integrated Urban Environmental Improvement Project (STIUEIP) in Biratnagar has commenced from 2010 to improve the quality of life and help to achieve higher and more socially inclusive economic growth of people through effective, efficient, and reliable delivery of improved and affordable municipal services. Infrastructure development of drainage and sewerage system as well as roads and lane improvement are the major components of STIUEIP in Biratnagar Sub-Metropolitan City (BSMC). Besides this, community development and institutional strengthening components, the two other objective focused components of STIUEIP Biratnagar are running various social development programs and activities.

Social development component is one of the major components of STIUEIP Biratnagar that comprises of various social development programs and activities like community development program (CDP), awareness raising, skill development, health and sanitation.

Social Development Specialist (SDS) in Design and Supervision Consultant (DSC) is deputed to assist the Project Implementation Unit (PIU) in implementing effectively the social activities to achieve the project goal as envisaged by the project. Monitoring of ongoing social development activities and consultation meetings with community people are the general tasks to be accomplished as regular basis.

Establishment and functioning of Social Safeguard Desk in PIU is a major milestone of social development aspect which has been effective to address all social/ community development issues and concerns with active initiation of the DSC.

Based on the poverty indicators, all details have been documented and shown in the social map. The program area for community development programs has been extended to most poverty stricken area scattered across several wards of the BSMC. The Community Development Program includes meetings, orientation, awareness activities, skill development trainings and health, hygiene and sanitation activities which are conducted and organized by the NGO (Fri PAD).

12. As there is slack period of the construction due to monsoon, Currently, the drain work has been stopped due to rain water and construction materials.

#### 3.7 Financial Plan

13. The Sub-project cost will be disbursed in three years starting from FY2013/14 to 2015/16. It has estimated that 20 percent of the Sub-project cost will be disbursed in first year. Similarly, in second year, 50 percent will be disbursed. Finally, remaining 30 percent of Sub-project cost will be disbursed in third year. Actual disbursement in the first fiscal year was 4.3 %( up to July 2014); 34.3% (up to July 2015 inclusive VO1) in second fiscal year and 56.79% (up to May, 2016). Hence the remaining disbursement 43.21 % will be done in third year.

#### 3.8 DISBURSEMENT RECORDS IN CONSTRUCTION

Table 5: Disbursement Record in Construction to Date

.N.	Description of Payment	Total Bill Amount with VAT & PS	Amount in NRs.
1	IPC 01		209,400,000.00
2	IPC 02	29,553,479.92	27,853,500.98
3	IPC 03	50,406,775.75	47,507,270.95
4	IPC 04	44,819,505.68	42,241,392.52
5	IPC 05	23,380,168.96	22,035,291.99
6	IPC 06	90,796,339.68	85,573,541.38
7	IPC 07	80,854,600.52	76,203,672.17
8	IPC-08	122,334,488.86	115,297,549.23
9	IPC-09	116,092,187.14	109,414,317.97
10	IPC-10	132,327,417.89	124,715,663.77
11	IPC-11	169,853,829.07	160,083,476.07
12	IPC-12	23,121,515.46	16,931,906.24
13	IPC-13	85,563,926.44	62,658,539.06
14	IPC-14	163,562,505.71	119,776,967.67
15	IPC-15	139,008,112.96	101,795,764.14

16	IPC- 16	137,640,413.95	100,794,196.94
17	IPC-17	135,118,714.02	98,947,553.85
18	IPC-18	39,288,088.98	28,770,702.33
	Total payment to date including PS & VAT and Excluding mobilization	1,583,722,070.99	1,340,601,307.24

#### 4. OBJECTIVES AND SCOPE OF WORKS

#### 4.1 OBJECTIVES

- 14. The following are the expected physical infrastructure improvement outputs of the project in Biratnagar:
  - Drainage and sewerage systems improved.
  - Urban roads and lanes improved.
- 15. Reference to the deliverables identified in the Project, indicates that there are a number of deliverables related specifically to the design aspects of the above infrastructure improvements with construction works.

#### 4.2 SCOPE OF WORKS

- 16. The scope of works for consultant's services is fairly detailed in the TOR attached with contract Agreement. The main points are summarized below:
- A. Detailed Design and Procurement Assistance Phase
  - 1. Surveys verification of Feasibility Studies and GIS Base Maps
  - 2. Finalization of Design Criteria, Preparation of Manuals, Guidelines and Systems.
  - 3. Specific design requirements for the sub-projects
    - Improvement and development of drainage and sewerage systems
    - Improvement of urban roads and lanes
  - 4. Project Planning and Management Support to PIU
  - 5. Detailed Engineering Design
- B. Construction and Post Construction Management Phase
  - 1. Construction Management and Contract Administration
  - 2. Environmental and Social Compliance Monitoring
  - 3. Implementation of Community Development Program, Community Mobilization and GESI Action Plan
  - 4. Capacity Building of the Municipality and Service Providers for Operational Sustainability
- C. Communications, Reporting and Deliverables (Inception Report, Monthly Progress Reports, Interim Report for each of the outputs, Annual Progress Report, Draft Final Report for each of the outputs and Final Report).

#### 5 PROGRESS OF SUB-PROJECT COMPONENTS

#### 5.1 STORM WATER DRAINS

17. The Contractor has resumed the works from mid December 2015 in difficult situation due to Madesh Strikes and partial fuel supply. Storm drains at B1, B2, B3, S9, S5, CN2, CN3 and Rani Area are being continued.

The contractor has completed storm water drain about 29.723 km out of 36.974km, 80.39% till July, 2016.

#### 5.2 SEWER LINES

18. The Contractor has resumed the sewer works from mid-December 2015 in difficult situation due to Madesh Strikes and partial fuel supply. Sewer lines with HDPE pipes are being continued as well as RCC pipes are also being continued with full strength.

The Contractor has completed sewer lines with HDP and RCC pipes about 29.207km out of 63.964 km which is 45.66%, till July, 2016.

The proposal of the precast concrete manholes, sewer inlets and house connection chambers has been submitted for review and approval. A conditional approval in consultation with the Employer has been given to the Contractor to prepare few numbers and to demonstrate at site. If the proposal comes out to be economical, time effective and environmental friendly and structurally strong enough to carry out the function of their respective items. Now, the Consultant has been approved the same as revised design.

The precast concrete house connection chambers, sewer inlets and manholes were installed at sites and found to be effective and we were able to open traffic at the shortest possible time. Especially where the business center with crowds (in R5 and R65 Roads) were very efficient and effective. This has reduced disturbances to the local people and road users, dumping of construction materials, workers and working for long period. This is found to be environment friendly too. Hence, the adaptation of precast units for sewer lines found to be effective and efficient.

During the site visit of delegate at different time in the construction period from BSMC, PMSC, ADB, PCO, local political representatives, TLO, Executive Director of TDF and the Secretary of Ministry of Urban Development have commended.

The payment for the respective item of works as appropriate is being paid under each IPCs for the cash flow and to account disbursement in ADB's disbursement book.

#### 5.3 WASTE WATER TREATMENT PLANT

19. Office cum laboratory building, workshop building and generator / changing house at WWTP, Jatuwa are completed. The Contractor had stopped activities except compound wall of WWTP site.

Now the Contractor is carrying out landscaping, embankment filling, remaining boundary wall at WWTP from mid December 2015. Structure work in Sump well has been revised as per site condition.

#### 5.4 ROAD AND LANES IMPROVEMENT WORKS

20. The Contractor has completed the rehabilitation / repair of existing drain of about 6.6 km in R2 road. The Contractor has completed the shifting/ relocating electric poles up to Bhatta Chowk on both sides.

The Contractor has been completed sub-grade preparation, sub-base, base course, prime and Tack coat and asphalt concrete in R2 road up to batta chowk. Road works have been frequently disturbed due to the existing water supply network and house connection pipes. The Contractor has completed 100% of road side drain of R2 road up to Pani tanki and along the sewer lines about 13.840km out of 127.138 km, 10.88% till July, 2016.

#### 5.5 CONSTRUCTION MATERIALS

21. The fabrication of steel moulds for precast units- manholes, sewer inlets and house connection chamber are continuing after the strikes at Madesh / Tarai similarly, other item of works inside the Contractor's yard is also going on smoothly...

The Contractor has resumed to produce the precast items (manholes, sewer inlets, house connection chambers, kerb stones, drain cover slabs etc.) at the Contractor's Camp, Katahari from mid-December 2015.

#### 5.6 CONSTRUCTION MATERIAL TESTING LAB

22. Construction material testing laboratory has been set up at the Contractor's camp at Katahari. Cube Test, Brick Compressive Strength, Cement Test is conducted in the Laboratory. Besides these tests, Aggregate Crushing Value (ACV), Flakiness Index (FI), Los Angeles Abrasion (LAA), CBR tests are also conducted.

As regular, Three Edge Bearing Test for RCC pipes of different diameter has been conducted on 20 January 2016 at Itahari in presence of Consultant (TL, CSE) and PM/PIU. And results were found satisfactory.

Now, construction material testing lab is working in full swing for testing of sub grade material, sub base material, base material, Bituminous items, concrete, brick, sand and aggregates.

### 5.7 PHYSICAL PROGRESS TILL JULY, 2016

23. Total physical progress till July 2016 is about 60.10% whereas the cumulative planned progress till 25th May 2016 is 100%, wrt work program rev. no 03. The progress of the work is lagging behind by 39.90%. (After EOT, **Revised work scheduled has to be provided**).

Figure 5: Plan Vs Actual Progress till July, 2016

# 6 SUMMARY OF ACTIVITIES CARRIED OUT UP TO PREVIOUS MONTHS

#### 6.1 Organization and Staffing

The Project has involvement of different organization and the staffing as shown below.

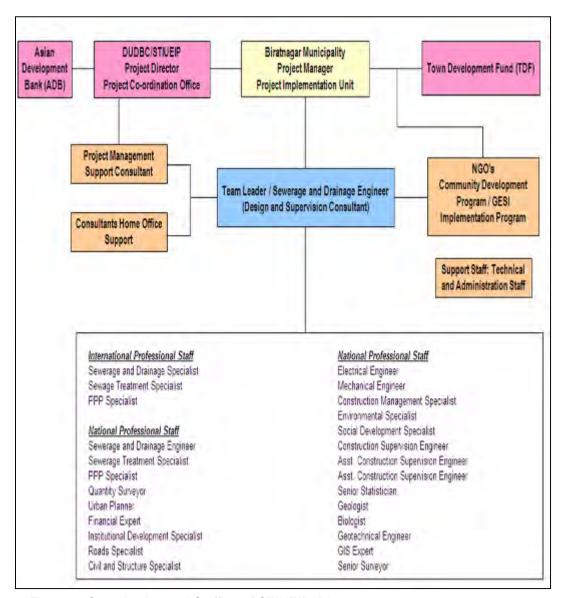

Figure 6: Organization and Staffing of STIUEIP, Biratnagar

#### 6.2 Inception Report

24. The Inception Report was prepared and submitted on 29 February, 2012.

#### 6.3 Conceptual Catchment Plan and Design Criteria

25. The Conceptual Catchment Plan and Design Criteria was prepared and presented in PCO on 30March, 2012.

#### 6.4 SURVEY

26. The survey was completed in August, 2012

#### 6.5 DESIGN

- 27. The design of sewer lines, storm drains, WWTPs and appurtenances and final detailed design and estimates were submitted in March 2013.
- 28. During construction B2, B3 and S5 alternate design was also submitted. Similarly, CN2 and CN3 were submitted as the community request to reduce the size. The size was reviewed with 1 year return period as per the suggestion made by PMSC during field visit. Minor modifications in drawings are being carried out for considering the site condition and progress.

#### 6.6 Pre-construction Activity

29. After successful completion of one stage two envelope bidding procedure the construction contract for STIUEIP/W/BRT/ICB-01 was signed on December 2, 2013 with M/S CTCE-Kalika JV, Baluwatar, Kathmandu.

#### 6.7 Draft Report

- 30. The construction/contract timing schedule was needed to incorporate some additional time of about 4-5 months to account for decision re-making process, tender award procedures.
- 31. The total cost as per PPTA and earlier designs increased drastically and came to beNRs.7, 274,465,206.69 and therefore needs curtailments and revisions had to be made as per suggestions by PIU in final report.
- 32. The overall works proposed in the PPTA and the area coverage with connection was thus needed to be phased out.

#### 6.8 FINAL REPORT

- 33. The DSC submitted the Final Reports adopting cost reduction exercise by phasing out of the works. The estimated cost of the Project was reduced and kept as NRs.3, 278, 140, 000, 00 with a lot of exercises in March 2013.
- 34. The sharing of cost by concerned institutions is as follows

**Table7: Agency-wise Financial Contribution to BSMC** 

Contributors	Amount(US\$)	Amount (NRs.)	%
Government of Nepal (GoN)	5,960,256	524,502,513	16.0%
Asian Development Bank (ADB)	24,213,539	2,130,791,460	65.0%
Biratnagar Sub-Metropolitan City (BSMC)	2,980,128	262,251,257	8.0%
Town Development Fund (TDF)	4,097,676	360,595,478	11.0%

### 6.9 CONSULTANT'S ACTIVITIES IN CONSTRUCTION PHASE

35. The current staffing of the consultant at project site is as follows

Table 8: Consultant's Staff at Project Site, Biratnagar

S. No	Name	Position
1	Giresh Chand	Officiating Team Leader/CSE
2	Jaya Prakash Yadav	Asst. Construction Supervision Engineer-1
3	Dikendra Katwal	Asst. Construction Supervision Engineer-2
4	Rajesh Yadav	Junior Engineeer-1
5	Sujan Shrestha	Junior Engineeer-2
6	Saroj Bhattarai	Junior Engineeer-3
7	Jay Prakash Yadav	Junior Engineeer-4
8	Santosh Yadav	Office Manager
9	Ramji Gimire	Driver-1
10	Suman Ghimire	Driver-2
11	Ramila Ghimire	Office Assistant

- 36. The consultant has been constantly supervising the contractor's work in daily basis. The consultant is mainly focusing in construction management, contract administration and the following activities but not limited as listed below:
  - i. Daily Construction supervision
  - ii. Quality control, cost control and time control
  - iii. Measurement and Certification of Interim Payment Certificates (IPC)
  - iv. Modification and design of storm drainage and sewer lines, manholes etc. as per site condition and approve working drawings
  - v. Supervise construction material testing and sampling
  - vi. Monitor Environment Management Plan and its compliance
  - vii. Monitor Social safeguard and Resettlement Plan and its compliance
  - viii. Meet obligation of reporting requirement Updated Environmental Progress Report, Updated Resettlement Progress Report, Monthly Progress Report, Semi-Annual Updated Resettlement Progress Report
  - ix. Prepare Due Diligence Report of the Project
  - x. Maintain correspondences with the Employer and the Contractor
  - xi. Assist to PIU

#### 6.10 KEY DATES

The consultant has noted the following key dates for the month of July, 2016

Table 9: Key dates of events /activities:

S. No	Date	Activities/Events	Remarks
1	14 – 15 July, 2016	Ms. Jaya Sharma, Gender and Development Specialist of ADB visited/meeting/workshop	
2			

### 7.1 PHYSICAL PROGRESS IN THIS MONTH

**Table 10: Physical Progress in Storm Water Drains:** 

		Physi	cal Progress ti	ll July 2016			
		Proposed	Progr	ess

# 8 DETAILS OF SAFEGUARD ACTIVITIES (SOCIAL, ENVIRONMENTALANDRESETTLEMENT ACTIVITIES AND ISSUES)

This report records the project implementation performance of social safeguard aspect for the duration of November 2015 and highlights the key activities undertaken during the period. The activities on the social development during the period are summarized below:

#### 8.1 Social Issues

## 8.1.1 OPERATIONAL GUIDE LINES FOR COMMUNITY MOBILIZATION AND IMPLEMENTATION OF CDP

#### Visit, Interaction and Consultation with Community People

37. Social Development Specialist (SDS) of the DSC is closely monitoring the social issues resulted due to the project activities. Visiting and interacting with people, Tole Lane Organizations (TLOs) and formal and informal consultation meetings are going on in this regard.

The project is regularly disseminating the information and message to community people about the project features, its purpose, methods of use and functionality of infrastructure under construction by the project through such consultation meetings. These meetings are fruitful to provide prior information regarding the project construction activities before execution at the community level. It is an appropriate platform to interact and make dialogue between 4 Cs (The Client, Consultant, Contractor and Community) about the project features, prime objectives, purpose, work methodology and potential threats/ cautions to be adopted during the project implementation.

The visits, meetings and consultations with community people at TLOs have provided many opportunities to obtain people's views and perception towards the project. Community people of those particular localities used to discuss extensively in the project features and have been provided some suggestions for efficient carryover of the project components and assured cooperation and coordination in the project execution in their localities.

Social Development Specialist (SDS)/ DSC along with of PIU, NGO staffs have been actively participated in the meetings. SDS/DSC as usual facilitate the consultation meetings, support to prepare meeting minutes and obtain decisions.

Apart from of this, many field visits and observations with community are also important to disseminate project message and monitor project features in the community. Monitoring visits along with Project Manager (PM), TL/DSC and TL/CDP to the core project area, community development program area and construction sites have been beneficial to make insight to the project progress, its effectiveness and challenges.

#### SAFEGUARD DESK

38. A Safeguard Desk established in the project has been effective in planning, monitoring and follow up of all social development/ safeguard issues including the resettlement plan. It has been started as a functional mechanism consisting of PIU, NGO and DSC for this purpose. The desk consists of the Social Development Chief of PIU, Team Leader of CDP/ NGO and SDS of DSC with close consultation and guidance of PM/ PIU. It is in compliance with the Aide Memoire of last ADB Mission (21 April-12 May 2014). It is decided that the desk will review, update and discuss the progress, issues, constraints and challenges of social aspects, Community Development Program and implementation of resettlement plan as well as monitoring of social development activities.

#### Tot on Gender and Social Inclusion (GESI) Mainstreaming

39. The project has been envisaged a 'Training of Trainers (ToT) on GESI Mainstreaming' for Biratnagar Sub Metropolitan City (BSMC) Office and STIUEIP project staff. The Aide Memoir Report of the ADB Review Mission has also noted about the training to be conducted in Biratnagar for the staff of municipality and related agencies. The Mission has recommended for conducting GESI training relating to urban infrastructure development to staff of municipality, municipal steering committee, PIU, local stakeholder agency and make them accountable for the better results. In line with this, the project is going to conduct Gender and Social Inclusion (GESI) Sensitization Training when it is approved. The revised ToT has been submitted to PIU, STIUEIP, Biratnagar incorporating the comments from PMSC and PCO.

Safeguard desk members discussed and reviewed the proposed 'ToT on GESI Mainstreaming' proposal. Social Development Specialist (SDS) of DSC has reviewed the detail proposal and adjusted budget accordingly for the 'Training of Trainers (ToT)' model. The training arrangement will be decided after the approval of this proposal by the project authority. Primarily it will be a 5 days training focusing mainly on Gender and Social inclusion Action Plan (GESIAP) comprising other project elements. About 35 participants from Biratnagar Sub Metropolitan City (BSMC) office and project staffs will participate in the training.

Ms. Jaya, Gender and Development Specialist of ADB has visited and conducted meeting/workshop on 14<sup>th</sup> and 15<sup>th</sup> July 2016.

## Update of Small Facilities Construction and other Activities in CDP/STIUEIP

40. The latest safeguard desk meeting has reviewed all ongoing and completed small facilities infrastructure and other activities implemented under the Community Development Program (CDP), a component of STIUEIP. It provided a common understanding and status information of infrastructures and activities under the CDP program to all safeguard desk members.

A glimpse of community development program has been obtained by the presentation in the appraisal and interaction meeting. Total 7,417.36 m. roads and 13,246.32 m. drains are under construction through small facilities infrastructure by CDP/STIUEIP. Regarding on the household toilet, total 458 nos. such toilets has been built by May 2015. Similarly 10 hand pumps have been installed, 45 hands pump platforms built and 5 public toilets are complete.

#### Employment in Project

41. The core activities of the project i.e. sewerage pipe laying, drain construction and road/ lane improvement provided employment to about 250 in a day this month. The employed human resources varied from skilled engineer/ project manager to general labor, supervisor, (sub) overseers and mechanics. However, a very few women (16%) are working in the construction activities as skilled and unskilled labor but they are paid equal to men for similar type of work. Three women Assistant Sub-Engineers are also working at construction sites after completing OJT (on the job training) successfully at the same sites from different CTEVT affiliated institutes of nearby districts. The contractor has been suggested to increase the work opportunity to women in different types of works.

#### General

42. Sewer/ Drainage lines are being laid in the public rights of way (RoW). During construction, if any trees or crops or structures demolished, it shall be properly addressed with compensation. Private individuals or shopkeepers will also be looked into if their livelihood is affected by the disturbance during constructions/ pipe laying works.

Apart from this, the project did not encounter any resettlement or re-location and any compensation issue in the month November 2015.

## 9KEY ISSUES AND REMARKS/REASONFOR DEVIATION (IFANY) AFFECTINGPROGRESS

- 43. Following are the key issues affected in progress:
  - Disturbance from existing water supply pipe lines network, under-ground cables, electric poles etc.
  - Due to heavy rainfall, no site activities has been observed.

#### 10 WORK PLAN FOR THE NEXT MONTH

- 44. Following are the Contractor's works in the next month (Please refer to the contractor's progress report for quantitative plan works for next month) the revised work program to be submitted by the Contractor after EoT:
  - Production of precast RCC items (RCC pipe, kerb stone, manhole, sewer inlet, house connection chamber, drain cover slab etc)
  - Maintenance work as per requirement.

## ANNEX-1: Work Schedule (Rev.03).

Note: Please refer to the contractor's progress report for detail and complete work program.

#### ANNEX-6: MINUTES OF MEETING – JULY, 2016

Meeting Minute: 11

# Secondary Towns Integrated Urban Environmental Improvement Project (STIUEIP)

#### Meeting of Safeguard Desk

Venue : Project Implementation Unit (PIU), Biratnagar

Date : July 15, 2016 Time : 13:30-14:30

#### Participants:

Upendra Prasad Baral-Project Manager/STIUEIP, Biratnagar

Punam Kumar Dahal- Chief, Social Development/ PIU, STIUEIP Biratnagar

Noor Jang Thapa- Team Leader/ CDP, STIUEIP -

Bala Ram Mayalu- Social Development Specialist/ DSC, STIUEIP

#### Special Invitee:

Giresh Chand-Construction and Supervision Engineer/ DSC, STIUEIP

#### **Discussion and Decisions:**

The following note summarizes major topics deliberated during the meeting and the decision reached.

S. No.	Agenda	Discussions and Decisions
1,	Appraisal of project activities	This 11 <sup>th</sup> meeting of Safeguard Desk/ STIUEIP Biratnagar held as a regular meeting for appraisal of project activities executed till date. The meeting started with review of previous decisions and discussions on additional agendas.
2.	Visit of Gender and Development Specialist from ADB/NRM	Meeting participants shared the meeting discussions held with Ms. Jaya Sharma, Gender and Development Specialist of ADB Nepal Resident Mission (NRM). Project Manager MR. Upendra Baral, CDP Team Leader Mr. NoorJung Thapa, Mr. Giresh Chand, CSE/DSC, Mr. BR Mayalu SDS/DSC and Mr. Punam Kumar Dahal, Chief of Community Development/ PIU provided substantial inputs to the visiting Specialist of ADB/NRM in different aspects of the project features on the next phase of STIUEIP Biratnagar. However the project will be an additional financing of IUDP (IUDP-AF) but the modality will be changed in Community Development and other aspects of benefits to the poor and marginalized.
		A workshop for discussion on potential project features and dissemination of preliminary design features organized today by Ms. Jaya Sharma was an effective program for all participants. The participants from TLOs, BSMC, PIU and DSC have actively interacted with Ms. Sharma and presented their views on the next phase of project modality.  As briefed by the visiting specialist, it was for the Assessment of past activities on CDP, GESI and other software features as well as find out the appropriate way to incorporate these components in next phase. Ms. Sharma met all the project

Page 1 Safeguard Desk Meeting Minute

		stakeholders and visited project activities of core and CDP area to observe the people's perception and interact with local people and stakeholders.
2.	GESI Training	As all the members of Safeguard Desk/STIUEIP is aware on the training of 'Gender Equality and Social Inclusion (GESI) Sensitization' to BSMC and project staffs. This type of training has been envisaged by the project since one year ago.  This meeting agreed to conduct such training in next month. The 5 days Training of Trainers (ToT) will be especially focused to municipality staffs, project staffs and NGO. Total numbers of participants will be about 25. The section chiefs of Biratnagar Sub Metropolitan City (BSMC) office (6 nos.), ward secretaries of BSMC (15 nos.), GESI focal person and project engineers of PIU/STIUEIP (3 nos.) and GESI focal staff of CDP/NGO (1 no.) are the proposed participants.

#### 1 Introduction

Secondary Towns Integrated Urban Environmental Improvement Project (STIUEIP), Department of Urban Development and Building Construction (DUDBC), under the Ministry of Urban Development (MUD) through the Government of Nepal (GoN) has received the loan from Asian Development Bank (ADB) Loan 2650-NEP STIUEIP includes construction of Sewerage and Drainage Network, Wastewater Treatment Plant, Road and Lanes Improvement . The main purpose of this project is to fascinate with better improvement of greenery urban city.

#### 2 Project Components

The Town Integrated Urban Environmental Improvement Project (STIUEIP) consists of following Sub-Project Components:

#### Drainage Network

The main aim of drainage network is to drain out storm water to the river side during the monsoon season and minimized the water pounding in the city

#### > Sewerage Network

Management of household sewerage project to the treatment plant in connection with chambers, manhole and pipes

#### Wastewater Treatment Plant Subproject

Treatment of sewer product in plant located at Jatuwa. The treated water is drain out to singhya river and solid waste project used as fertilizer in farming.

#### Road and Lanes Improvement Subproject

Existing road sections at different part of Biratnagar will be upgraded by extending road width and providing footpath.

#### ➤ Road Side Drain and Water supply Network (Additional)

Road side drain and water supply network is addition of scope of work in this project which was not included in original contract.

#### **3** Salient Feature

A. General Features	
	Government of Nepal(GoN),
	Ministry of Urban Development
Employer	Department of Urban Development and Building Construction
Funded By	Asian Development Bank & Government of Nepal
	Biratnagar Sub-Metropolitan City
	Secondary Towns Integrated Urban Environmental Improvement
Project	Project(STIUEIP)
Contract No.	STIUEIP/W/BRT/ICB-01
Location	Biratnagar Sub-Metropolitan City
Consultant	SMEC-Brisbane-AQUA-BDA-CEMAT
Contractor	CTCE-KALIKA JV.
Commencement Date	December 8th, 2013
Original Completion Date	25 May 2016
Revised Completion Date	09 March 2017
Original Contract Period	900 Days
Original Contract amount	
with PS & VAT	NRs 2,391,332,117.06
Revised Contract amount	
after VO # 02. with PS &	
VAT	NRs 2,719,617,069.21

#### 4 Scope of works

The activities to be undertaken according to the Contract Agreement are as follows:

- a. To carry out all necessary topographic surveys, soils investigations, laboratory analysis or related investigations where necessary to supplement the data provided bythe Employer.
- b. To prepare working drawings for all elements of the Works.
- c. To undertake all steps necessary for upgrading of roads and bridges, all related to access to the Site, or other related matters, where his opinion differ significantly from
- d. Preparation of stockyards for pipes, fittings and other materials and equipment.
- e. To take all steps necessary for the temporary or permanent diversion of services and the maintenance of services during the execution of the Works, including diversion of overhead with underground power lines, telephone ducts, water supply mains and distribution lines (pipes), sewers and other underground services as required along the route of the pipelines.
- f. To supply all pipes, valves, fittings and other materials and equipment required for construction of the Works. The Contractor's supply items may include manufacture, collection, transportation and delivery to Site. The Contractor will be responsible for ensuring that all procedures are adequately covered and that the materials fully confirm to the Contract requirements. These responsibilities will include all necessary charges or dues related to insurance, freight, taxes (including customs and excise duties, surcharges etc.) and all testing and inspections for quality control.
- g. To provide all necessary staff (including civil engineers, specialists, administrators, site supervision personnel) and workmen (including all necessary specialists, operators, tradesmen, artisans etc. in addition to semi-skilled and unskilled workers)necessary for execution of the Works through to completion. Where appropriate, the contractor shall provide all suitable facilities and accommodation for the staff and workmen and he shall make provision for all costs related to such provisions and for medical, re-location, taxes or other expenses.
- h. To provide all equipment, machinery, tools etc. and related spares, maintenance and consumables necessary for implementation of the Works.
- i. To provide all site offices, stores, workshops and facilities necessary for use by the Employer, Engineer and support staff and for the Contractor himself and his supporting staff
- j. To undertake all operations necessary to complete the Works. These operations shall include: excavation, provision, haulage and installation of suitable bedding and backfill material and disposal of surplus excavated material; distribution, laying adjoining of pipes;

installation of all special pipe work, valves etc. and construction of all related concrete or other activities together with all testing and disinfection of completed Works. The Contractor's attention is drawn to the restricted working space between Rajbanshi Chowk to Rani, Biratnagar where the sewer pipes, drains and road/lane is to be laid in a narrow road. In this section work in addition to that associated with the trunk main, will include but not be limited to, removal and replacement of a sewer laid in the road and reinstatement of road surface.

- k. To liaise with other contractors on the site and to ensure harmonious co-operation with them so that conflicts are avoided and areas of common interest, constructional interface or potential overlaps are addressed without cost to the Employer or delays in completion.
- To prepare documentary records of the Works in the form of "as-built" drawings and GIS
  data, schedules etc., and to train staff of the Employer in the procedures for laying pipes,
  valves and fittings.
- m. All the above activities shall be performed in a professional way and with good engineering and/or constructional practice. Upon completion of the Works the scheme shall be fully operational with minimum disruption or inconvenience to interested parties, including land owners, and there shall be no outstanding matters requiring attention.

#### 5. Physical Progress (Achievement till the month)

#### 7. Details of Safeguard activities

Till the date no such issues have been faced relating to the Social, Environmental and Resettlement matter.

#### 8. Key Issues and Remarks

Following issues were raised in this month

Submitted Claim No.01 to 07 has not addressed up to this month.

- ➤ Lack of BoQ item such as; Reinforcement, Brickwork, M25 Concrete etc.
- ➤ Delay in approval of VO.03
- ➤ Lack of Amount in Provisional sum which has created delima in shifting Electric pole and Water supply pipe lines.
- > During this monsoon, heavy rainfall occurs all over Nepal. This monsoon also affects our contract work. All the construction work activities have been halted due to heavy rainfall.
